

KEMARO

Autonomous Robotics

Remote Sweeper K900 RC

The purpose of our remote-controlled sweeper is to make life easier for companies and employees that frequently need to clean **dangerous and difficult-to-access areas**.

Thanks to the K900 RC you can clean any area remotely when needed, with total control, and with precision.

IDEAL CLEANING SCENARIOS:

Beneath loading docks

Under conveyor belts

Assembly lines

CUTTING-EDGE

- Navigate hazardous areas and successfully clean without endangering personnel.
- Improve and protect employee health.
- Produced and manufactured with the creative power of KEMARO's team.

EFFICIENT

COST SAVING SOLUTION
